

Virtual Mentoring

Offers support virtual mentoring

Connect your people with quality mentoring
from anywhere, literally.

According to research, virtual mentoring can be as effective as Face to Face mentoring. Sometimes it's necessary for virtual mentoring to be utilised to accommodate geographic dispersion, best of breed matches, to avoid competitors being matched or to make mentoring accessible to a virtual workforce.

At Art of Mentoring we have supported many virtual or eMentoring programs and are well equipped to do so. Some of these programs have achieved higher success rates than even Face to Face programs but they aren't without their challenges. Art of Mentoring is able to help the delivery of a virtual mentoring program with bespoke resources, mentoring software, online training for mentors/mentees, etc.

The Virtual Mentoring Program Professional Plan supports the journey with:

- Easy-to-use program management software solution
- Educational multi-media eLearning resources to guide both mentors and mentees through the journey
- Templated applications and surveys to get you started quickly; or ask us about managing the program for you

Reach out for more information about virtual mentoring or book a complimentary Situation Analysis workshop to see how we can help you design a virtual program.
